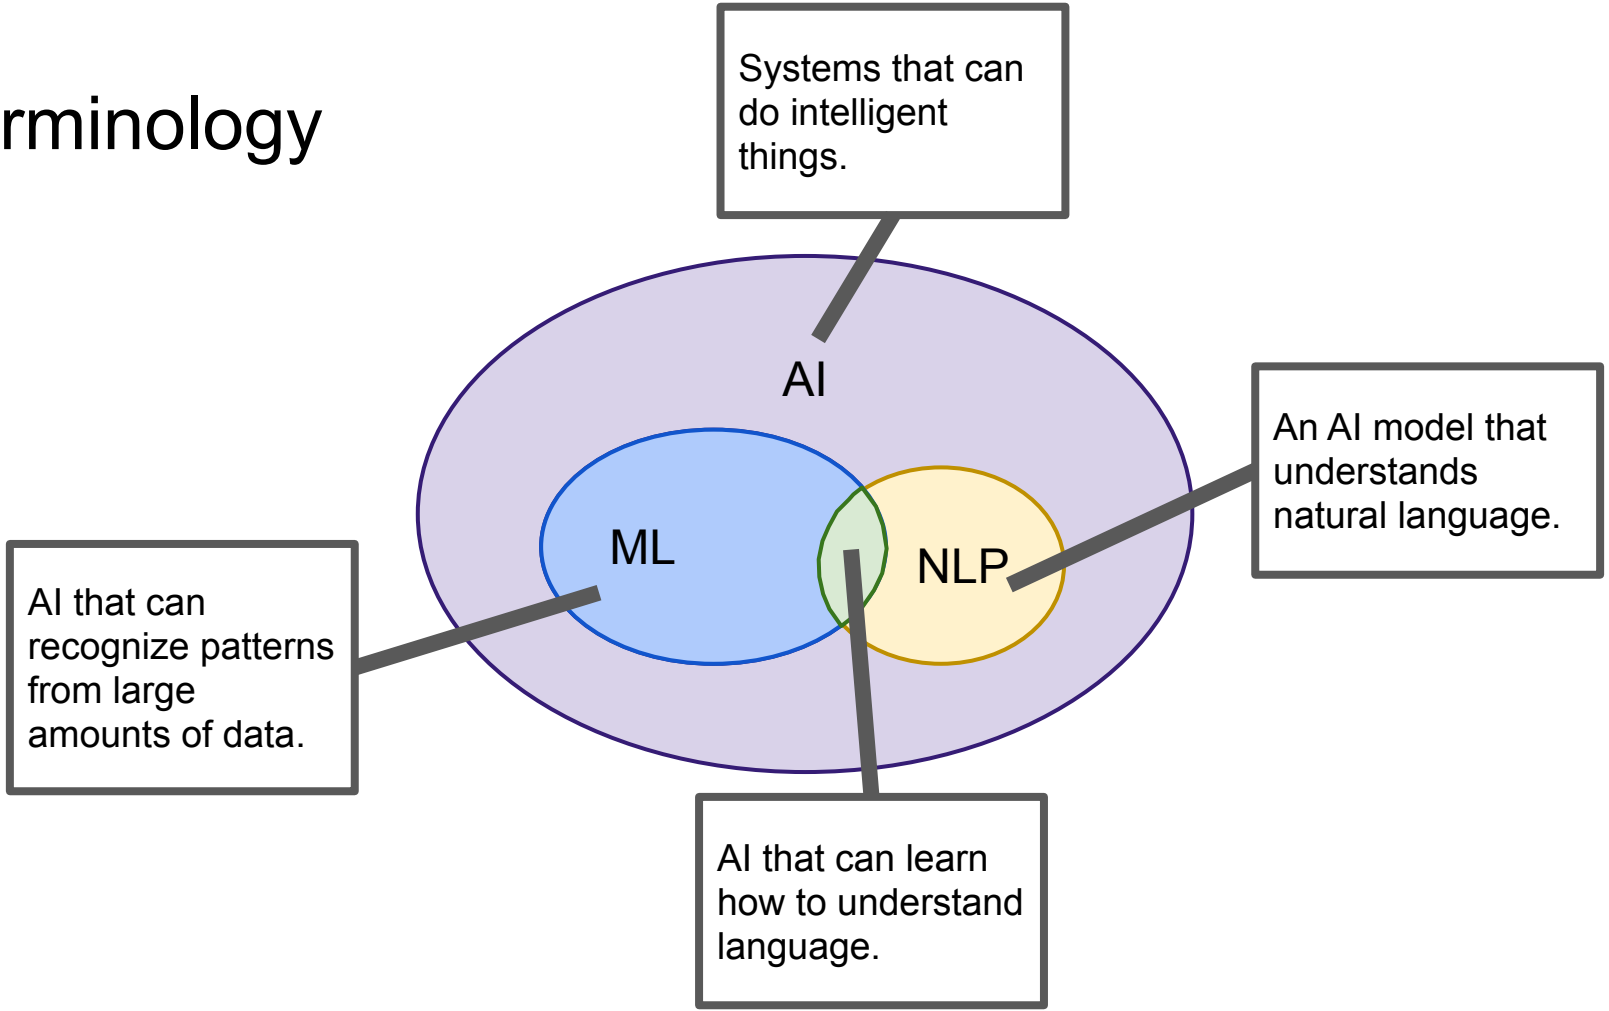
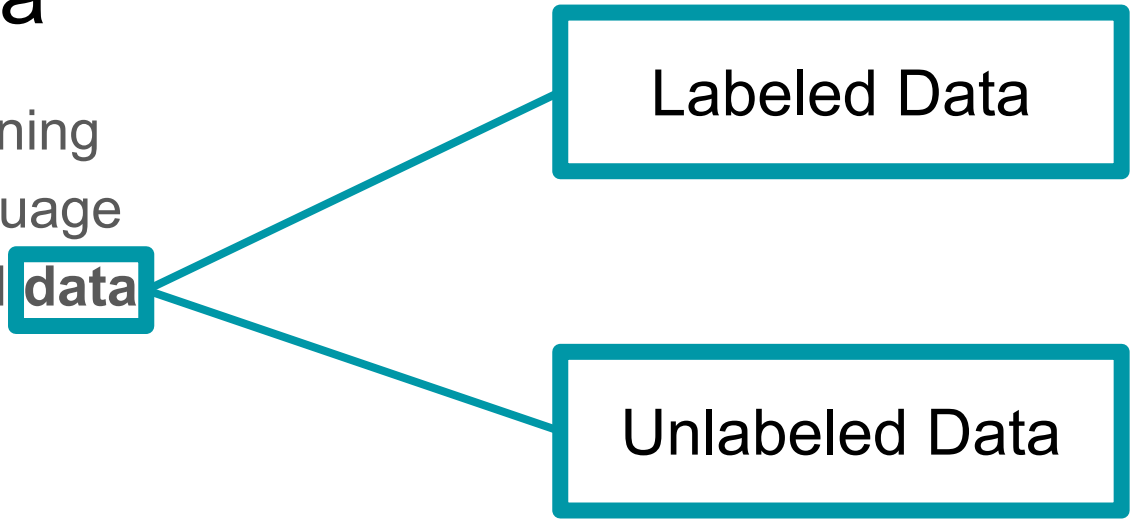
Terminology



AI and Data

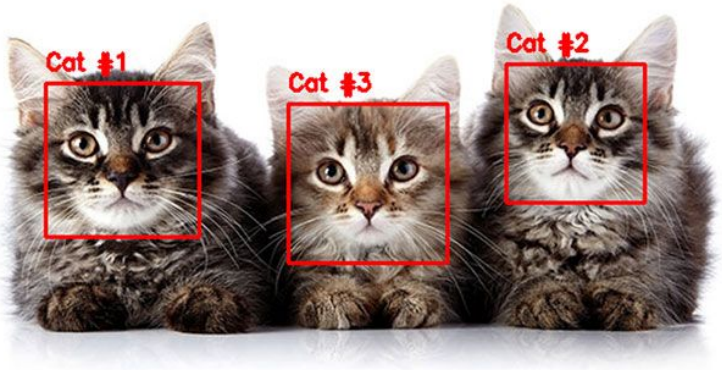
All machine learning and natural language processing need **data** to train.

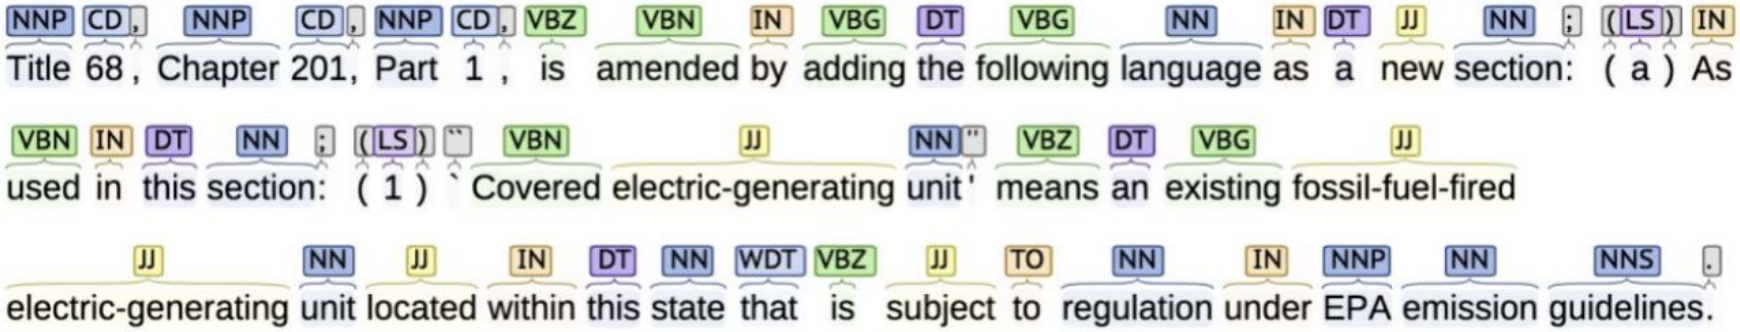


Labeled Data

Data that is tagged.

Also called "annotated data".





Unlabeled Data

Data that is not tagged or labeled.

Professional Services Agreement

This Professional Services Agreement (this "**Agreement**"), dated as of [DATE] (the "**Effective Date**"), is by and between [SERVICE PROVIDER NAME], a [STATE OF ORGANIZATION] corporation, with offices located at [ADDRESS] (the "**Service Provider**") and [CUSTOMER NAME], a [STATE OF ORGANIZATION] corporation, with offices located at [ADDRESS] (the "**Customer**").

WHEREAS, [Customer desires to retain Service Provider to provide certain [DESCRIPTION OF SERVICES] services upon the terms and conditions hereinafter set forth, and Service Provider is willing to perform such services].

In consideration of the mutual covenants and agreements hereinafter set forth, the parties agree as follows:

1. Definitions.

["**Action**" has the meaning set forth in Section 11.1.]

"**Affiliate**" of a Person means any other Person that directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with, such Person. The term "control" (including the terms "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a Person, whether through the ownership of voting securities, by contract or otherwise.

["**Authorized Service Recipients**" means the [Affiliates of Customer as may

3 Main Types of Machine Learning

Supervised

- Learns from human-labeled data.

Semi-supervised

- Learns from a small amount of labeled data and a large amount of unlabeled data.

Unsupervised

- Learns from unlabeled data.

Atticus and AI

The Atticus Project is open-sourcing a collection of “labeled” legal contracts for AI training purposes so that contract review tools can improve their accuracy and comprehensiveness. "Labeled" in this context means tagging the relevant legal provisions (e.g. most favored nation, exclusivity) in a legal contract by Atticus volunteers under the supervision of experienced attorneys.
